

**BLOCK TECH
BAHAMAS**

WELCOME

THE BAHAMAS

BlockTechBahamas.com

Block Tech Bahamas Summary

We will become the leading hub for Blockchain companies setting up in the Bahamas

We will work with local businesses and Government supported initiatives

Embrace local opportunities to enable the further growth of crypto business in the islands.

Bahamas - The Crypto Islands.

We aim to enable over 1,000 companies to call the Bahamas home, both virtually and physically on the islands.

EXISTING CRYPTO ASSOCIATIONS & HUBS

There are currently two existing Crypto associations and hubs.

Crypto Valley has over 1,000 organisations based world wide.

CRYPTO VALLEY SWITZERLAND

CryptoValley.swiss

Welcome to Crypto Valley

One of the World's leading Blockchain and Cryptographic
Technology Ecosystems

CRYPTO OASIS DUBAI

CryptoOasis.ae

Crypto Oasis has over 1,000 organisations based in the UAE alone.

CRYPTO OASIS

The Bahamas should be the next world renowned crypto network and hub. Block Tech Bahamas will make this happen.

THE BAHAMAS SHOULD BE NEXT

■ Location and Facilities

10

Our offices

Two location hubs.

Block Tech Bahamas will have two office locations based in Nassau and Freeport.

Nassau - Bahamas

Freeport - Bahamas

Q1 2024

Services

**BLOCK TECH
BAHAMAS**

The Block Tech Bahamas Association will unify resources for both established and startup companies to take advantage of a range of solutions available to enable them to grow their operations from the Bahamas.

ASSOCIATION

Block Tech Labs will be established to offer a physical location for companies to be based. The Labs will offer a full service for companies to start, network and grow their businesses in the Bahamas.

LABS

Block Tech Bahamas will stage live and online events from The Bahamas and will be involved in events ran by others. These regular events will enable Block Tech Bahamas, its partners, companies and members to a worldwide market. In addition to bringing major exposure to the Bahamas islands as “the place to be” for new blockchain and tech based companies.

EVENTS

Block Tech Bahamas will attract investors and direct investment into The Bahamas Islands.

INVESTORS

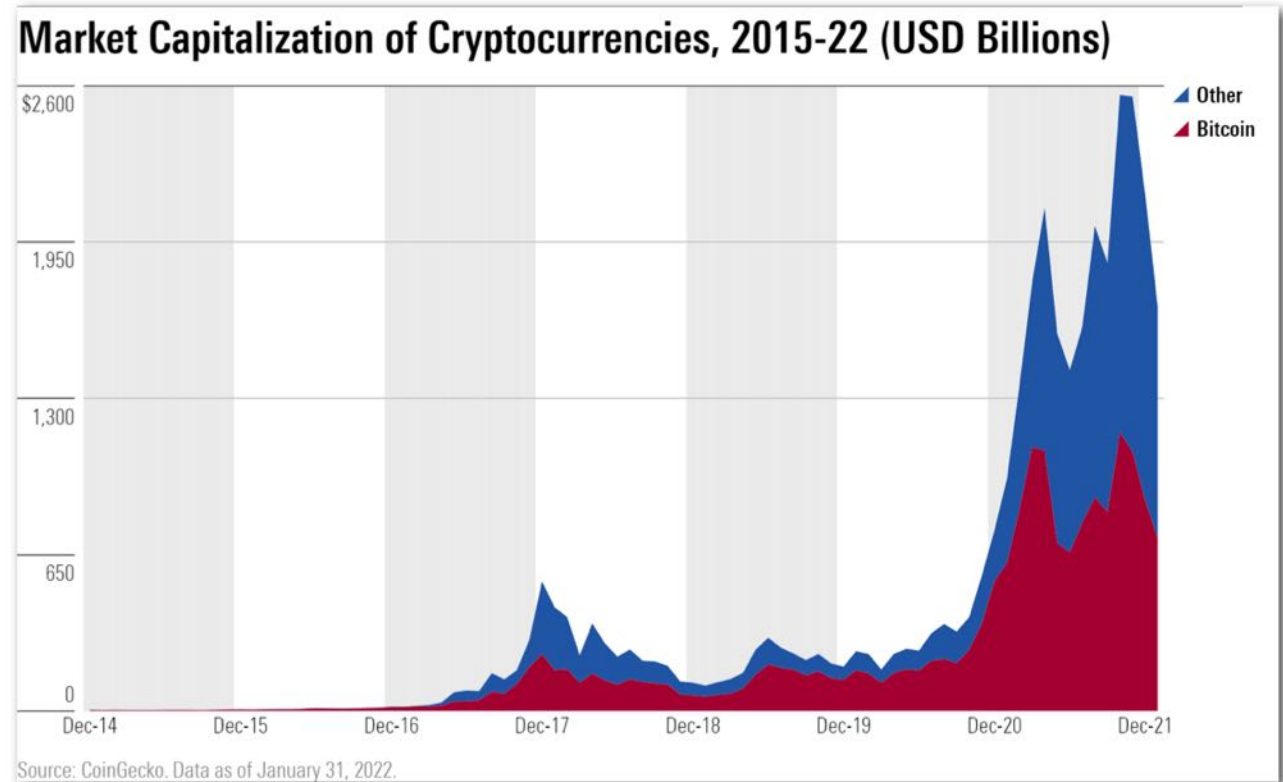

The projected growth of blockchain investment shows that institutional investment is set to treble in the next three years.

BLOCKCHAIN GROWTH

The market capitalisation of Crypto currencies had quadrupled in the last two years. This trend is set to continue.

CRYPTO GROWTH

The Bahamas offers a massive range existing resources to tech companies wishing to develop products and services. The islands are ideally situated to provide a wealth of development services to Block Tech Bahamas affiliated enterprises.

Block Tech Bahamas will provide a network of local and world-wide complimentary business services designed to enable companies based on the islands to grow and develop their businesses.

We will attract new talent and expertise to The Bahamas Islands in addition to providing new training and jobs to Bahamians who will be needed by companies establishing their presence on the island.

The potential to provide new jobs to the Islands' residents will provide valuable new opportunities to Bahamians.

JOBS

Block Tech Bahamas will market itself worldwide to attract new companies to join this exciting new tech development hub in the Bahamas. The association will also offer marketing services to all of its members and partners.

MARKETING

We will establish partnerships with a range of companies both based in the Bahamas and around the world.

These partners will benefit from increased exposure and provide valuable assistance and services to members of Block Tech Bahamas.

We will offer membership of the Block Tech Bahamas Association on a yearly basis. This will provide members with access to all our services and resources.

In addition Block Tech Labs will provide facilities to companies physically located in the islands and virtual companies wishing to have a presence in the Bahamas.

A DAO (Decentralised Autonomous Organisation) will be created to offer members of Block Tech Bahamas the chance to participate and vote on important elements of the vision of Block Tech Bahamas. The BTB DAO will be a unique feature of the organisation and offer a truly inclusive platform for all partners, members and sponsors.

BTB DAO

Future Services

27

Physical
Companies

Virtual
Companies

E residency

(Subject to government approval)

Future services offered by Block Tech Bahamas.

We will offer companies a turnkey solution to be physically based in the Bahamas.

We will offer companies a service to be virtually based in the Bahamas.

We will look to offer E residency to individuals and businesses .
Similar to Estonia E residency program.

S.W.O.T Analysis

28

Strengths

Human resources

The Bahamas offers a great pool of employees for Block Tech Bahamas startups.

Physical resources

Being based in both Nassau and Freeport we will offer an abundance of physical locations for companies to be based.

Weaknesses

Activities and processes

Things move quick in the Crypto space and BTB will work with partners and government to not miss out on forthcoming opportunities.

S.W.O.T Analysis

30

Opportunities

The economy

Block Tech Bahamas will provide a great boost to the economy of the Bahamas.

Funding sources

This project will attract funding from both Bahamas based entities and global crypto companies and partners.

Threats

Progression of other jurisdictions

BTB will move quickly to compete with the progression of existing hubs and potential plans of other counties such as Bermuda.

Lack of physical locations and infrastructure

With the move of existing large crypto companies to Nassau there is a threat of lack of physical locations and infrastructure. BTB will deal with this by focusing on Freeport as being a key additional hub for their operations and development.

**The time is right.
The time is now.**
